EDUCATION

Georgia Institute of Technology | MS in Human-Computer Interaction
Atlanta, GA, US, Aug 2019 – May 2021 (expected)

Beijing Institute of Technology | BE in Industrial Design
Beijing, China, Sep 2015 – Jul 2019

PROJECT

College of Computing Website Redesign | UX Researcher, UX Designer

Georgia Institute of Technology, Atlanta, GA, US, Sep 2019

- Worked with the College of Computing Communications Team to provide in-depth research for the college website overhaul.
- Improved the navigation experience by designing a new information architecture based on user research.
- Redesigned and prototyped the key webpages iteratively with evaluation with faculty users and UX experts.

PACTS Resource Map | UX Designer

Bits of Good, Atlanta, GA, US, Sep 2019

- Ideated and prototyped an interactive resource map of the partner providers for the Philadelphia Alliance for Child Trauma Services.
- Created the visual style and UIs to make the application more friendly for the traumatized youth and their family.

Georgia Tech Printing Assistant | UX Researcher, UX Designer

Georgia Institute of Technology, Atlanta, GA, US, Sep 2019

- Designed an online platform for students on GT campus to learn about how to print, manage print jobs, find printers and troubleshoot printing issues.
- Conducted user interviews and usability testing with GT students and iterated the design.

Volunteering Experience

Bits of Good | Senior Product Designer

Georgia Institute of Technology, Atlanta, GA, US., Sep 2019 - Present

Working with product managers and engineers in teams to design and develop real-world applications for nonprofit.
